Educational Grants

Open Doors of Hope & New Opportunity for the Poor

Our purpose is to help secure a more positive future for today's children and families who lack proper resources in underserved areas around the world.

Please join with us and help send a 40-ft container of educational materials and humanitarian aid to Africa.

With our purpose in mind, educational opportunities are among the most important basic human need in any developing country. In many areas of Africa, it is estimated that more than 85% of its population is illiterate and living in extreme poverty, and free public schools are non-existent or usually extremely overcrowded. With 55% unemployment rate, the average African family simply cannot afford the cost of tuition for private or church schools, nor can they afford the cost of transporting their children to neighboring areas where a seat may be available in free public school. Therefore, the poor have no opportunity to enter primary school or to ever receive a 12th grade diploma. AGR, Inc. has placed special emphasis on providing educational opportunities for those who can least afford them -- the poorest of the poor. Through our educational enrichment project, grants are awarded to provide tuition, uniforms, and school supplies for children in orphanages, child welfare homes, and those who live in extreme poverty. Through college and higher learning projects, scholarships are given for 4-year college programs, computer programs, auto mechanic training, nursing programs, and other specialty areas.

Whatever assistance you provide will be greatly appreciated. Please consider becoming a monthly sponsor or a partner today. We need braille laptop computers, computers, solar panels and generators for electricity, foreign made vehicles (cars, trucks, and school buses, no more than 6 years old in good running condition). Volunteers are needed! Perhaps you can provide assistance for our humanitarian projects.
